

DISASTER TO THE BRITISH

Report That French's Division Has Been Decimated by Burghers

BOERS ARE DESPERATE

They Are Following Up Advantage Gained in Sunday's Big Battle

TRANSVAALERS GATHER IN FORCE ON VAAL RIVER

Gen. Roberts Reports That Telegraphic Communication Has Been Cut—He Praises the Conspicuous Gallantry Displayed by His Officers in the Recent Disaster to His Force—Battery U of the Royal Horse Was Captured Without a Shot Being Fired—Roberts Made a Stupid Blunder.

Bushmans Kop, near Bloemfontein, April 3—[Special Cablegram]—The Boer army still holds the water works after repulsing several British attacks.

Bloemfontein, April 3—[Special Cablegram]—It is reported that Gen. French engaged a strong Boer command coming from Ladybrand and that the British were almost decimated by the enemy.

London, April 3, Via Pretoria, March 31—[Special Cablegram]—There is heavy fighting between Bradford and Bloemfontein. The Wakkerstroom and Ermelo commands attacked seven thousand British and drove them back with heavy losses. The federal troops held positions on the top of a mountain while the British positions were opposite on a side hill. The British charged repeatedly but were repulsed. The federal loss was nine killed and wounded.

Reports from Brandfort later state that two thousand Federals attacked three thousand British successfully, but thirteen thousand British reinforcements arrived, and the Federals were compelled to retire after punishing the British severely. The Federal loss is slight.

Was a Stupid Blunder.

London, April 3, a. m.—The loss of seven guns by Broadwood's column, officially confirmed by Lord Roberts, and also described by the war correspondents as a stupid blunder, makes the total cannon lost by the British in the present war twenty-three, which is more than at any period in England's military history since 1783.

Ten guns were lost at Colenso, four Nicholson's Nek, two at Stormberg, and now seven at Bloemfontein.

Against this the Boers lost five at Paardeberg, and surrendered two in the Free State.

Boers Move Southward.

The Boer forces from Kroonstad have advanced to Smaldeel Station, on the railway sixty miles south of Kroonstad. This advance may indicate an intention to try conclusions with Lord Roberts, and shows certainly the Boers have gained in boldness during the delay necessary for the reorganization of the transport at Bloemfontein.

A message from Boer sources shows more fighting around Mafeking, in which Plumer was engaged. The Boers add that Plumer was repulsed.

Whole Battery Captured

London, April 3—[Special Cablegram]—Gen. Roberts cables from Bloemfontein April 2: "Have had considerable difficulty in getting accurate returns of casualties, owing to telegraphic interruption. Although there has been no engagement since, we have been continually in touch with the enemy. Many acts of conspicuous gallantry were displayed by officers taking the place of disabled gunners, and remaining under a twelve hundred cross fire of some hours. The Essex, Munster, Shropshire and Northumberland mounted infantry and Roberts' Horse, which covered the retirement of the guns, withstood the determined attacks of the enemy. All of U battery Royal Horse artillery, except the major and sergeant major, were captured without a shot being fired."

BOERS ACTIVE ON VAAL RIVER

Over 6000 Burghers Have Assembled at Various Points

Kimberley, Sunday, April 1.—There is great Boer activity along the Vaal River. About 6,000 burghers have assembled at various points between Fourteen Streams and Christiana.

About 700 men are occupying Witrand, north of Kilipdam, and 400 men are laagered at Boetsap.

"Johannesburg, of which it has been said that she supports all South Africa, is a fearfully dead city at present. The bulk of its white population has deserted the Rand, and also many of the Kaffirs. The streets are deserted, the tram cars do not run and the hundreds of rickshaws have dwindled to half a dozen. A few decrepit looking cabs stand idly about the squares. Most of the shops are closed and windows boarded up. The countless chimneys which tower above the mines are cold, except for the few being worked by the government. The enormous gold output has stopped.

Don't miss the indoor ball game at the Y. M. C. A. tomorrow night. Rockford vs. local Y. M. C. A.

PALMYRA WOMAN IS CURED WITH FIGS

Cancer Taken Away By Self Treatment Spanish Cannon Arrives at Madison.

Palmyra, Wis., April 3—Mrs. G. P. Wooster, a leading resident here and energetic church worker, is very happy and wants everybody to know the cause of her happiness.

Many months ago a council of all the physicians in town decided she had a cancer and only by a prompt surgical operation would she be cured. To this she objected, determining to die a natural death from it than be thus tortured.

Some one, however, suggested that she try the "fig cure" and treat herself. It could certainly do no harm if it did not effect a cure. Accordingly a short time ago she laid in a supply of the best figs the market afforded. She ate figs, took fig syrup and used fig salve and poitlices until, greatly to her surprise, the cancer loosened its hold and by her own hands was transferred to a bottle of alcohol.

This she today exhibits as the result of the "fig cure" in answer to her prayers.

Spanish Cannon at Madison

Madison, Wis., April 3—The Spanish cannon which Madison received from the war department arrived Sunday night and this morning was drawn to the Capitol park with two teams attached to a decorated wagon. A parade of the city was made with it. The gun is ten feet long, with a 6 inch bore and weighs 3,600 pounds. Its history has not yet been received.

No Oshkosh Street Fair

Oshkosh, Wis., April 3—Oshkosh will have no street fair this year unless the merchants themselves combine and give it. The Elks last evening decided to drop the project on account of the opposition that developed to holding an enclosed fair which was their idea.

NETHERSOLE TO ACT "SAPHO" IN COURT

Actress and Her Company Facing a Jury Trial in New York—Boston Bars "Sapho."

New York, April 3—The trial by jury of Olga Nethersole, the actress, and those associated with her in the production of "Sapho" on the charge of offending public decency, came up this morning before Justice Furman of the criminal branch of the supreme court. Miss Nethersole, Hamilton Revello, her principal actor, and Marcus Mayer, her manager, were present.

The trial promises to be most spectacular. Mr. Haunel announced that he had subpoenaed every member of the "Sapho" company, and expected to act scenes from the interdicted play that the jurors might judge for themselves without relying upon the descriptions of witnesses.

Columbus, O., April 3—A representative of Miss Olga Nethersole visited Mayor Swartz today to secure his sanction to the production of "Sapho" in this city. The mayor positively refused to give his consent, and notified Miss Nethersole's representative that the police would interfere if any attempt was made to produce the play here.

Boston, Mass., April 3—The police commissioners today issued an edict that "Sapho", the novel, the dramatization of which caused so much trouble in New York, from this time on cannot be legally sold in Boston.

CLOSING BREACH IN METHODIST CHURCH

Baltimore Methodist Conference, North and South, to Meet in Washington Simultaneously.

Washington, D. C., April 3—For the first time since 1861, when the Baltimore Conference of the Methodist Episcopal Church divided, the two organizations, the Methodist Episcopal Church and the Methodist Episcopal Church South, will meet simultaneously in annual conference in Washington during the coming week. The Methodist denomination in the United States divided in 1844 on the question of slavery, but the Baltimore conference remained undivided until shortly after the outbreak of the civil war. Since 1861 there have been two Baltimore conferences. The sessions of the two organizations will begin tomorrow.

ODDS ARE AGAINST MAYOR D. S. ROSE

Ballots in "Wooden Shoe" District Promise to Snow Him Under

CASTING A HEAVY VOTE

Outlying Anti-Street Railway Company Wards Have Been Aroused

It Seems Likely That Baumgaertner Will Be Elected By a Good Majority—Rose Claims the Labor Vote and Insists That He Will Be Elected By a Good Majority—Both Parties Are Working Like Beavers Today.

Milwaukee, April 3—[Special Telegram]—Favorable weather prevails and at 10 o'clock this morning the municipal election is in full swing. The early morning vote in the Tenth, Thirteenth, Ninth, Nineteenth and Twentieth wards was very large and indicated a big Baumgaertner vote.

The republicans look for a landslide for Baumgaertner and the rest of the ticket. The democrats claim that Mayor Rose will be elected by 4,000 to 5,000 majority.

The absolute confidence of the republicans was more marked than ever last night. "All this democratic burrah business about the hotels and saloons down town hasn't any significance. Wait till you hear from the vote in the wards," said a republican leader this morning. If Baumgaertner's majority is less than 8,000 or 10,000, it is safe to say, his supporters will be disappointed.

The main issue is the extension of the street railway franchises by Mayor Rose and the Democratic administration. Mayor Rose injected a new issue by promising a "wide open town" which has brought to him the support of a certain element, and coupled with this he has the support of the street car interests of both the Democratic and the Republican parties. On the other hand there has been a revolt against Rose in his own party.

Two years ago Mayor Rose was elected by 8,000 plurality. This morning while he claims he will be elected by 7,000 his campaign managers claim 3,000. They do not, however, furnish any figures and the only table by wards furnished by Democratic politicians gives Rose a plurality of 900.

The most conservative claim made by the Republicans places Mr. Baumgaertner's plurality at 3,000, while some claim his plurality will be 12,000. The Republican campaign managers furnish a table of pluralities by wards which gives the Republicans the city by 6,000.

The interest in the contest is the greatest ever known in any except a national election and a full vote is expected.

In the Ohio municipal elections yesterday the main interest centered in the result in Cleveland. In the last few years a fusion ticket composed of democrats and dissatisfied republicans has been successful, these being elected last time by over 7,000 plurality. This year, however, the republicans nominated Julius Fleischmann, a colonel on Governor McKinley's staff and friend of Senator Hanna, a young man with large business interests, and he was elected by over 8,500 plurality. The republicans also secure control of the Board of Public Safety.

In Cleveland the republicans were also successful, the May ticket, supported by the admirers of Mayor Jones of Toledo, being third in the race.

The feature of the result in Columbus was the election of the Rev. Washington Gladden, the well known Congregational minister, as a member of the city council.

Returns from the election in Utah to fill the vacancy caused by the rejection of Roberts show the democrats to be in the lead.

In Michigan republicans won at Holland, Niles, Benton Harbor, St. Joseph, Eastings, Mason, Grand Haven, Benton Rapids, Coldwater, Adrian, Marquette City, St. Louis and Big Rapids. Democrats won at Monticello, Epsilanti, St. Ignace, Greenville, Lexington, Hudson, Hillsdale, Laporte and Alpena.

Idaho, Montana, goes republican by over 250 majority.

All Nebraska elects except Omaha vote today.

RESIGNS TO PLEAD FOR BOERS

Assistant Secretary Davis Quits Federal Service and Will Lecture.

Washington, April 3—Webster Davis, assistant secretary of the interior, today tendered his resignation.

PORTO RICO BILL IS SURE TO PASS

The Party Leaders Figure On a Majority Of About Eight

VOTE THIS AFTERNOON

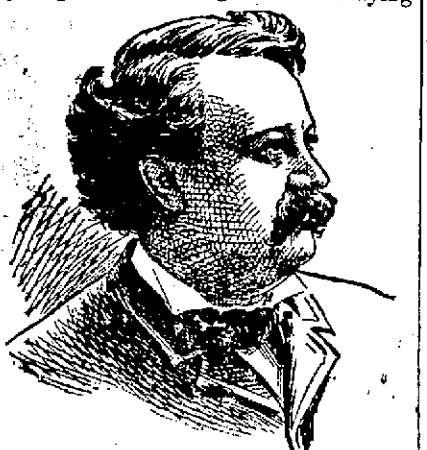

Amended Measure Satisfactory to Commercial and Industrial Men

The 15 Per Cent. Tariff Clause is Retained But the Time Limit For Its Enforcement Will Be Very Short—Bill Will No Doubt Also Pass the House—Rural Free Delivery is Popular.

Washington, April 3—[Special Telegram]—Senator Mason addressed the senate in opposition to the Porto Rican bill. He stoutly contended that the measure was unconstitutional. He dared any one to say that the Philadelphia convention would favor a violation of the provision that all duties on imports must be uniform. There was no such thing as an eighty-five per cent annexation, he said. The vote will be taken at 4 o'clock this afternoon. Administration leaders claim a majority of eight.

Washington, April 3—[Special Telegram]—The house took up the bill to provide a territorial form of government for Hawaii. Two days will be given to general debate and the vote will be taken on Thursday afternoon.

Distress in Porto Rico. San Juan, April 3—[Special Cablegram]—While congress is delaying

WILLIAM E. MASON.

action on the Porto Rican bill the natives on the island are awaiting the verdict in distress. All trade is practically at a standstill; bankers refuse to advance the money to move sugar and tobacco. One hundred and fifty to two hundred thousand people are destitute. Feast day today was turned into a day of supplication and prayer. All business houses closed at noon.

Washington, D. C., April 3—The senate will pass the Porto Rico bill this afternoon very much as it stands, with a tariff of 15 per cent. of the Dingley duties on Porto Rican products that come to this country and practically free trade in our products shipped to that island, to continue until the 1st of March, 1902, or until the territorial legislature of Porto Rico shall devise and enforce a permanent system of taxation.

This is entirely satisfactory to the delegates from the commercial and industrial organizations of Porto Rico now in this city. They would have accepted it gladly weeks ago. It will relieve the distressing situation that now exists among them; it will stimulate trade and will bring into the local treasury a revenue that is very much needed.

GOV. TAYLOR WILL DEFY CIVIL OFFICERS

Warlike Preparations Around the Capitol at Frankfort—Barricades Being Built.

Frankfort, Ky., April 3—Warlike preparations around the state capital buildings late this afternoon indicate that Governor Taylor and others are expecting to be indicted for complicity in the assassination of William Goebel, are preparing to barricade themselves in the statehouse and defy arrest by the civil officers.

About 5 o'clock this morning the Gatling guns which frowned from the yard upon the streets in front were removed inside of the executive building and are now mounted in the building with the muzzles protruding from the windows of the lower floor.

It was generally believed that Taylor was preparing to go to London to which place a large part of the arsenal paraphernalia had already been removed and which is in the heart of the republican mountain population, but this present move is taken to indicate that he will remain here.

Taylor did not return to the city this morning and there is a late rumor out that he will remain in hiding in Louisville until the grand jury reports.

GAINS ON NATIONAL DEBT

Federal Income Steadily Exceeds Its Disbursements

Washington, April 3—The monthly statement of the public debt issued today shows that at the close of business March 31, 1900, the debt, less cash in the treasury amounted to \$1,112,256,358, a decrease for the month of \$6,629,701. This decrease is accounted for by a corresponding increase in the cash on hand.

The debt is recapitulated as follows: Interest-bearing debt, \$1,026,862,140. Debt on which interest has ceased since maturity, \$1,207,600.

Debt bearing no interest, \$390,979,613. Total, \$1,419,049,353. This amount, however, does not include \$720,500,779 in certificates and treasury notes outstanding, which are offset by an equal amount of cash on hand.

STRIKES INVOLVING NEARLY 50,000 MEN

TROUBLE AMONG COAL MINES AND BUILDING TRADES.

Dissatisfaction With Operators' Interpretation of New Wage Scale in Pittsburgh District Causes a General Walkout of 30,000 Employees—Indiana Coal Diggers to Remain Idle.

City and Trades. No. of Strikers. Pittsburgh, coal miners, 30,000. Brazil, Ind., coal miners, 5,000. St. Louis, painters and carpenters, 3,500. Joliet, building trades, 3,000. Cleveland, building trades, 300. New York and vicinity, carpenters and laborers, 2,500. New Brighton, L. I., building trades, 250. Newark, N. J., building trades, 1,500. Long Branch, carpenters, 500. Harrisburg, Ill., miners, 300. Wheeling, West Virginia, iron workers, 300. Chicago, April 3—Strikes involving nearly 50,000 workmen began yesterday in various parts of the country.

The most serious trouble is in the Pittsburgh district, where 30,000 miners quit work because the men were dissatisfied with the operators' interpretation of some clauses of the new wage scale which went into effect April 1. Ten thousand workmen are expected to go out tomorrow.

In the Indiana mining districts 5,000 miners will stop work today because of wage troubles. The only other places where mining troubles are acute are at Springfield, Ill., and Wheeling, W. Va.

In the vicinity of New York the building trades are affected to the extent of several thousand men, and this seems to be the cause of strikes in St. Louis and Cleveland. Carpenters' striking has stopped all operations in the building trades in Joliet, and the painters in many other cities are trying to force higher wages and shorter hours by a similar movement.

GEN. OTIS' ROSEATE VIEW OF THE WAR

He Says Filipino Officers Are Surrendering and Situation Has Become More Pacific.

Washington, April 3—[Special Telegram]—Gen. Otis cables from Manila as follows: "Since January the first, one hundred and twenty-four skirmishes in the Philippines are reported, but mostly slight affairs. Our casualties are three officers and seventy-eight enlisted men killed; thirteen officers and one hundred and fifty men wounded. The insurgent and Ladrone loss in killed and left on the field is fourteen hundred and twenty-six; six captured; wounded, fourteen hundred and fifty three; small arms secured thirty, fifty-one pieces; artillery, one hundred and sixty-five; and large captures of other insurgent property. A number of important insurgent officers are surrendering and the situation is generally becoming more pacific."

GOV. TAYLOR WILL DEFY CIVIL OFFICERS

Warlike Preparations Around the Capitol at Frankfort—Barricades Being Built.

Frankfort, Ky., April 3—Warlike preparations around the state capital buildings late this afternoon indicate that Governor Taylor and others are expecting to be indicted for complicity in the assassination of William Goebel, are preparing to barricade themselves in the statehouse and defy arrest by the civil officers.

About 5 o'clock this morning the Gatling guns which frowned from the yard upon the streets in front were removed inside of the executive building and are now mounted in the building with the muzzles protruding from the windows of the lower floor.

It was generally believed that Taylor was preparing to go to London to which place a large part of the arsenal paraphernalia had already been removed and which is in the heart of the republican mountain population, but this present move is taken to indicate that he will remain here.

Taylor did not return to the city this morning and there is a late rumor out that he will remain in hiding in Louisville until the grand jury reports.

QUEEN VICTORIA ON HER JOURNEY

She and Her Escorts Will Reach Dublin This Afternoon.

WELCOMED TO WALES

The Royal Party Left London Last Night For the Irish Capital

All Ireland is on the Qui Vive in Anticipation of the Regal Visit—Over 500,000 Visitors Will Throng the Streets of Dublin Tomorrow—Promises That Her Majesty Will Be Given an Enthusiastic Welcome.

Dublin, April 3—[Special Cablegram]—The queen arrived at Kingston at 2:15 o'clock, earlier than was expected. Thousands flocked to the quay and cheered wildly when the vessel entered the harbor. The lord lieutenant and other notables were not present owing to a misunderstanding as to the time. It is raining hard.

Holl Head, Wales, April 3—[Special Cablegram]—Queen Victoria arrived here at nine o'clock this morning. A great crowd gave her a welcome at the station. An address was made, to which the queen replied expressing gratification over the loyalty of Wales.

Left London Last Night

London, April 3—Queen Victoria left Windsor at 9:30 o'clock last evening for Ireland. She is accompanied by Princess Christian and Princess Henry of Battenberg and is attended by the

QUEEN VICTORIA.

Countess of Antrim, the Hon. Harriet Phipps, Sir Arthur Biggs, private secretary to the queen; Sir Fleetwood Edwards, keeper of her majesty's privy purse, and Captain Ponsonby.

Not in the history of the Great Western and London and Northwestern railways have greater precautions been observed to protect the royal train than those which had been perfected when the queen started northward last night.

Great Care of Royal Train

These officials, who have superintended the transportation of czars, kaisers, and the princes of all nations in and out of Windsor, have exerted themselves beyond precedent to insure the safety of the royal train between Windsor and Holyhead.

The pilot engine named "Prince of Wales" ran a quarter of an hour ahead of the royal train, and after its passage all tracks were kept absolutely clear.

The royal train was drawn by two locomotives with expert engineers and a complete staff of railway experts and electricians accompanied the train, for immediate action in case anything should go wrong.

Dublin is on the Qui Vive.

Dublin, April 3—All Dublin, and in truth, all Ireland, is on the qui vive in anticipation of the queen's coming. Crowds are pouring in from all points, and it is estimated that the normal population of Dublin, about 360,000 will by tomorrow have swollen to 1,000,000.

Rooms are at a premium. From every town came throngs anxious to share in the gaiety that now promises to be unmarred. From Belfast alone 10,000 are expected.

By the exercise of the greatest possible tact the government officials have practically destroyed sectional feeling, and there is no doubt that her majesty will be welcomed with an enthusiasm equal to if not greater than that which was displayed during her recent visit to London.

Representative nationalists here when questioned today regarding the placard inviting citizens to join a procession of nationalists societies on the night of the queen's arrival as a protest against it, disowned all knowledge of this attempt at a counter attraction, and alleges that such a procession would amount to nothing.

Mr. and Mrs. A. Engelhorn and daughters and Miss Minnie Danbach left this morning for Oshkosh where they will make their future home.

THIS DAY IN HISTORY.

1775—Simon Kenton, pioneer of Kentucky and Ohio, born in Fauquier county, Va.; died 1836. Kenton was one of Daniel Boone's companions in the settlement of Kentucky and defense of the border from Indian forays. He served also as a soldier in the war of 1812.

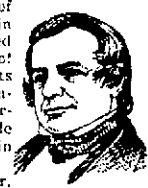

1788—Washington Irving, author, born in New York city; died 1859.

1798—Charles Wilkes, U. S. N., hero of the Trent. San Jacinto affair, born in New York city; died 1877.

1802—Admiral Sir James Clark Ross, Arctic navigator and discoverer of Victoria Land, died; born 1800. Sir James served with his uncle, Sir John Ross, in the first voyage of the latter to discover the northwest passage, 1818. Later he made three voyages under Captain Parry. In 1849 he was appointed commander of the Erebus and Terror expedition to the antarctic regions. The result was published in 1847.

1805—Rev. Barton H. Cartwright, a pioneer Methodist of the west, died; born 1810.

1807—Johannes Brahms, well known musical composer, died in Vienna; born 1838.

ANOTHER MADISON TRIBUTE

Madison Democrat—The plot thickens. Here is Senator Whitehead out for the governorship, and of all republican aspirants one of the most satisfactory from every standpoint. In a legislative career of sufficient duration to demonstrate his character and worth he stood the test so well that few there are who can say aught against him. His manner is that of an honest man and his record on the multifarious measures on which he must vote as a law-maker contains nothing to alter the good impression formed from personal association. He is a reformer, but in a conservative way that seems to comport well with the healthful tendency of the times, and is classed both as a friend of the electric Mr. La Follette and of the other fellows who are supposed to be insulated against the magnetic methods of that galvanic gentleman. In this difficult position of equilibrium Mr. Whitehead displays the possession of a temperate and conciliatory spirit quite remarkable.

Whether he wins or not, he is a wholesome fellow who casts a robust shadow that never haunts him with fear, and if he is really in the contest earnestly he will enter the state convention so well bulwarked from Rock county and elsewhere in southern Wisconsin that he must certainly be a considerable factor in the strategic combinations already forming with reference to the nomination.

A VERY ABLE MAN

Superior Evening Telegram—The candidacy of Senator John M. Whitehead of Janesville, is meeting with very much favor throughout the state, if one may judge from the press comments. Mr. Whitehead is certainly a very able man and his record in the legislature would commend him for the high office of governor. We do not know what strength he will have in the northern part of the state, but the situation may arise in the state convention by which it would be good politics and wisdom to recognize the claim of the first district for the head of the ticket, especially if this stronghold of republicanism should present a united demand for a candidate.

Madison, Wis., April 1—George Burns, a paper-hanger, died tonight in the police station of heart disease. He applied to the police early in the evening for lodging. About 9 o'clock he complained of pains in the breast, and when a doctor arrived he was found dead. He came here from Deerfield, but his home is supposed to be somewhere in the east.

Madison has a police system under which prisoners are not left alone. Suppose Burns had been in the Janesville lock-up, and had died while all alone. Somebody would be censured, would they not?

The Cubans want a republican form of government, but the men who represent the business interests prefer that he island remain under American control

until the people are a little better posted. The Cubans have been apt scholars, but have still much to learn. The impress of years of Spanish misrule can not be effaced in a day.

The spring campaign in Janesville has been so quiet orderly and good natured that the people of this town have to watch someone else's fight in order to have any excitement at all. Hence, all eyes are on Milwaukee.

The Milwaukee street pavement looks nice and clean again, and strange to relate, no portion of it has yet fallen into the bowels of the earth.

As was predicted in this column yesterday, the election passed off quietly and there was no "bloodshed and rioting at the polls."

The Gazette office will be open this evening, and the returns will be given as fast as they are received.

Of course you voted early, but did you "cast your invaluable suffrage" often?

Of course you have the result all figured out in advance.

The war is over. "The king is dead, long live the king."

A CARD
 We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

SOUTH AFRICAN LAWS.

There Life Is Valued At Less Than Diamonds.

"Kimberley proper is built around a hole big enough to hold the entire white population of South Africa. This is the excavation above the Kimberley mine, made when diamonds were mined from the surface. Nowadays shafts are sunk and levels formed, whence the blue ground is blasted out and hauled to the surface in elevators. The diamond is different from other precious stones, in that it is found in soft clay, while the amethyst, ruby and emerald are embedded in quartz. This makes the diamond easy to conceal in the mouth, nose, and by swallowing, and every year the De Beers company gets from the workmen \$2,000,000 worth of stolen goods. The inclination to pilfer these stones is so intense that the crime is severely punished. In South Africa the first commandment is 'Thou shalt not steal diamonds.' For having a diamond found on his person that is not registered a man will get 20 years' imprisonment. At Cape Town is a great convict station called the 'Breakwater,' where sons of prominent American families and English aristocrats join in lockstep with Lascars and Kafirs. They have all violated the first commandment. In Kimberley 1,000 negro convicts sort the diamonds under the muzzles of Martini rifles. They are kept in a separate place. The other black boys live in a five-acre enclosure known as the 'compound.' The De Beers company controls the diamond market of the world. Of the five mines—Kimberley, De Beers, Du Toits, Pan Bullfontein, and Premier—the first two are situated in Kimberley and are the only ones worked now. The diamonds produced in other parts of the world would not supply the city of Philadelphia. The value of the South African product thus far has been \$800,000,000. The supply seems inexhaustible."—Ainslie's Magazine.

Italy's Development.

Italy is developing rapidly as an electrical and manufacturing country. Its immense water powers are the moving influences. Through the harnessing of its numerous streams which rush down the Alps it can secure enormous power at mere nominal cost. The Italian naval authorities have just placed contracts for 27,000 tons of steel wire ship material—Philadelphia Record.

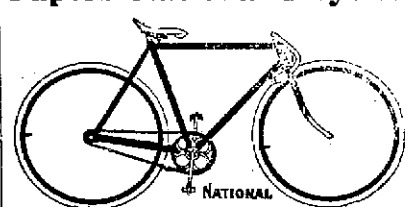

Men and Women of America.

Fellow Beings:
 Will you believe on strongest possible evidence—No, that is asking too much at first—but will you risk twenty-five cents to learn for yourself that there is now within your reach almost instant relief from pain and nearly all kinds of indisposition.

We know this from our personal experience, our family experience, prominent medical testimony, and the experience of thousands, who now join with us in telling others what a blessing to humanity has been found in "Orangeine," a little five-grain powder of delicately balanced remedies secured from the life practice of a skillful physician.

"Orangeine" is harmless beyond question, beneficial and efficacious beyond description. Its great usefulness has interested four Yale graduates in our active staff, and our list of stockholders includes men of great business and professional prominence, both East and West.

DULLER WRITES FROM PHILIPPINES

JANESVILLE BOY DESCRIBES LIFE NEAR MANILA.

Says That He Has Met Several Young Men Who Reside in Evansville and That They Are Enjoying Good Health—Were Fired of While Par-taking of Breakfast.

Frederick J. Duller, a well known Janesville boy who is now a member of Uncle Sam's army in the Philippines writes the Gazette from Albay, P. I., under date of February 3, as follows:

We are having a warm time over here at present I assure you. We slept on our guns all last night for we thought the niggers would come in every time.

We came to the town of La Gaspar on the twenty-third of January. The gunboat Nashville came with us, that is four companies of us, the rest stopping at times along the line. When we got into the harbor the captain on the boat was afraid to land for the town was all surrounded by trenches about ten feet high.

Well, after fooling this way for about an hour we decided to send a gang in small boats to see what was going on. As it happened, I was picked out with the fifteen men. Then we got in a small boat and started for the shore, and when we got pretty near to shore, up went the Philippine flag, and then they opened fire on us, but that didn't stop us, and away we charged upon their trenches.

About that time the old gunboat began shooting, and that started the boys. It was fun to see them get off the boat when she backed up to the wharf. Talk about shooting! Well, the niggers lasted about two hours, and then away they went for the mountains as fast as they could go, with the Yankee following right behind them.

We drove them right along through to the town of Abloy, where we are at present. They made a sacred vow to the priests to recapture this place, and they have been shooting around here ever since.

While at breakfast the other morning the rebels poured a volley into us from the mountains that made the fellows look for their guns.

I was the second man to land where the battle took place, and I met Sergeant Ross Barton was the first man, and he got shot through the arm.

Company E had a fight, again last night down at La Gaspar. They were reinforced today by Colonel Howe and Companies I and L of our regiment; also, a detachment of artillery.

I have seen several of the boys from Evansville over here; they are all in the Forty-fifth regiment, and are getting along splendidly.

HEAVY MACHINERY SHIPPED TO BELGIUM

The New Doty Manufacturing company of this city have made the shipment of an eight-ton iron cutting machine to Belgium. This machine was consigned to a manufacturing firm, and the cost of the shipment, alone will amount to a good sized sum. The shipment was made via New York, and then by boat to Antwerp. The local firm pay the freight as far as New York City. The New Doty Manufacturing company have been making several foreign shipments of late, and the local factory is enjoying a thriving business.

Attention, Pensioners! You will find me at my office, 26 West Milwaukee street, at six o'clock April 4, 1900. Angie J. Kink, Att'y, and Notary Public for Wisconsin.

A Kind Red to Win. In 1893 three Irishmen agreed to undertake a journey around the earth on foot for a jackpot of \$150,000. Each one of the party deposited one-third of this sum in the Bank of Dublin, and it was agreed that whoever survived the trip and returned should receive the whole amount. In case all died a Dublin hospital was to become the beneficiary. On Dec. 24, 1895, they started east across Europe and Asia Minor to Egypt, where they took passage for Australia. Their wanderings through the inner wastes of Australia proved the hardest trials of the journey, and the severity of this trip resulted in the death of two of the travelers. The third, Capt. Trevelyan, completed the voyage and won the money.

—New York Press.

Deepest Oil Well.

It is claimed that the deepest oil well in America is situated in the Monongahela river valley, about twenty-five miles from Pittsburgh. The hole has been drilled to a depth of 5,332 feet, but work has been suspended owing to a break in the two and seven-eighths inch rope used. As a result 1,000 feet of rope and a string of spools are at the bottom. Experts are at work and hope to be able to resume drilling soon. It is proposed to sink the well 6,000 feet.

Stoves stored. Talk to Lowell.

Need a wrapper? If you do, we want to talk to you and tell you about the new spring line that we have just placed on sale. They are the famous H. H. Hoyt wrappers and have superior points about them that you should know. Bort, Bailey & Co.

A son has arrived at the Ruger avenue home of Mr. and Mrs. William Pfennig.

COME and see our spring styles. We can soon convince you we are selling shoes at Rock bottom prices. Attend our Wednesday sale. Money saving event. Amos Rehberg & Co.

OLE C. NEWHOUSE DIES AT CLINTON

WAS PROBABLY THE OLDEST MAN IN ROCK COUNTY.

Was Born in Norway in 1806, and Was Therefore Over Ninety-three Years of Age—He Had Resided On the Homestead Since the Year of 1842.

Ole C. Newhouse, probably the oldest man in Rock county if not in Southern Wisconsin, died at his home near Clinton today, aged ninety-three years and three months.

Mr. Newhouse was a native of Norway, being born in that country on December 27, 1806.

He learned the cabinet makers' trade at an early age, and in 1842 decided to emigrate to America. He reached Wisconsin in that year, and settled near Clinton, abandoning his trade to follow the occupation of a farmer. Mrs. Newhouse died some years ago. They had no children, but adopted a son, N. O. Newhouse, who also joined the silent majority, leaving one son, W. O. Newhouse, of this city.

Mr. Newhouse was one of the last survivors of the sturdy old pioneers who had watched Wisconsin grow into one of the proudest states in the union. He was an exceptionally vigorous and active man, and took a lively interest in politics. He was a staunch republican, and never wavered in his support of republican principles. He was able to be about until the last few weeks, and had suffered no illness. His demise was due solely to his advanced age.

Mr. Newhouse was widely known and universally respected. His long life was well spent, and his death will be generally regretted.

Funeral arrangements have not yet been made.

BRIEF BITS OF LOCAL NEWS

The man who labors, earns, we'll say, One dollar and a half per day.

His family on his salary.

Manage to get along and thrive;

When sick his income always ceases.

THE indoor ball game at the Y. M. C. A. tomorrow night will be of special interest, the Rockford team being considered the best in the northwest.

If you don't win a pair of shoes on the results of the election, you can get a pair at almost as cheap at the big sale on the bridge. O. D. Lincoln.

MISS CAPELLE will hold an Easter sale of pictures, plaster-casts and novelties Saturday, April 7 and Monday, April 9, at her home, 155 South High street.

THE Rockford indoor ball team and the local Y. M. C. A. boys will give a fine exhibition in the Y. M. C. A. gymnasium tomorrow night, April 4th.

SHOES that are right at prices less than are right. We bought them at 50 cents on the dollar and can sell them cheaper than others can buy. O. D. Lincoln.

WEDNESDAY special—Tan shoes, spring styles, all the new shapes, a whirlwind for the money—all sizes and widths, Wednesday one dozen at \$1.98. Amos Rehberg & Co.

THE comedy "Side Tracked," which is due here at Myers Grand tonight is reported doing a phenomenal business and has a record for successful management.

Our large ad will interest every lady. The new wrappers we tell you about in the ad are worthy of your inspection and we extend to you a special invitation to call and look them over. Bort, Bailey & Co.

MANAGER Myers of the Grand opera house has booked Mr. William Owen for one night only, next Thursday, in "A Gilded Fool," the lively comedy of American life written by Henry Guy Carlton, in which Nat Goodwin made his greatest hit.

The prices \$1 and \$1.25 which we are asking for these new wrappers is very reasonable when the quality is considered. The line we give you to select from is a representative one. Bort, Bailey & Co.

LEUCUS H. DAVIDSON, formerly of Janesville, but now of Madison, who for several years has been a writer on the Chicago papers and magazines, spent yesterday and Sunday in the city. He was recently granted a judgment of divorce by Judge Siebeckor at a special term of court in Sauk county after completing a legal period of residence in this state.

FRANK L. QUATSOE TO LEAVE

Former Local Well Known Shoe Merchant Closes His Store Here.

Frank L. Quatsoe, who for the past two years has conducted a boot and shoe store at the corner of Milwaukee and River street, closed his place of business Saturday evening. This week Mr. Quatsoe will leave for his former home in Green Bay after making a visit in Milwaukee and Michigan. During his two years residence in Janesville Mr. Quatsoe has proved himself to be a reliable business man upright and honest at all times. He has made many warm friends who will regret much at his departure, but who will join in wishing him success in whatsoever he undertakes.

DUNN STOPPED A RUNAWAY

Well Known Legal Light Proved Himself a Hero This Morning.

Charles E. Dunn proved himself a true hero this morning. He stopped a frantic runaway team attached to a milk wagon, thus preventing what looked like a serious affair. The horses came across Milwaukee street bridge at a breakneck speed. There was no driver in the wagon. Mr. Dunn rushed into the street and grabbing one of the reins, he brought the team to a halt. Fifty people who witnessed the act were loud in their applause.

W. D. CANTILLON PROMOTED

Former Well Known Janesville Boy Was Made Superintendent.

W. D. Cantillon, a former well known resident of Janesville, has become superintendent of the Northwestern line from Winona to Prairie, making the main line of the system under one superintendent between the Mississippi and Missouri rivers.

They Marry Young.

The Boer youth weds extremely young. His education is over and he is considered a man of business when he is 16. His bride does not come to him portionless, but usually with a dowry of cows, goats and sheep, a span of oxen and a quiet riding horse. To each child that is born a well-to-do Boer likes to assign certain farm stock as a "nest egg" for a future dowry or as a start in life.—London Daily Mail.

Some Points About Metals.

Extreme cold increases the tenacity of pure metals and alloys, and the higher the melting point of metal the stronger it is likely to be. This is accounted for by the statement that metals with high melting points must necessarily be coherent and tenacious. Metals are composed of molecules, and high-melting point metals require an enormous amount of heat to drive the molecules apart.

BAND MEMBERS HELD ANNUAL BANQUET

At the Y. M. C. A. Building Last Evening—Their Eighth Annual Banquet Followed by Musical Program.

Members of the Y. M. C. A. band held their eighth annual banquet last evening at the local association building. An excellent repast was in order at 7:30 o'clock. The table lacked for nothing in the way of good things to eat. Following the serving of refreshments a musical program was rendered, participated in by the band and individual members. Oscar Bucklin rendered a trombone solo that clearly demonstrated that Mr. Bucklin is truly an artist on this difficult instrument. Prof. Taylor rendered a vocal solo that was well received. The Y. M. C. A. band have practiced hard this winter and are now in excellent training. The band already have several engagements and the coming summer season promises to be a most profitable one.

SINGING AT THEIR WORK.

Darkest Accomplish Much More When They Can Make Music.

Contractors in south Missouri employ many negroes to load railroad ties on the cars of the Memphis railway, says the Kansas City Star. The ties are cut in the woods, hauled to the railway in wagons and dumped in piles along the side of the roads. The negroes then take them up, tie by tie, and run with them up the planks to the cars, where they drop them in regular order. These negroes are paid a price for each tie they carry, so they vie with one another to earn the most money in one day. They become so expert at the work that an old hand can throw a heavy tie on his shoulder so that it will balance, and then, without holding it, he will run, both hands pressed flat against his sides, up the gang plank to the car. The negroes are so accustomed to the work that they seldom drop a tie and seem never to have sore shoulders. One may see gangs of a dozen or more of them, all singing and whistling. Each sings at the top of his voice or whistles as loud as he can, and every tune is different. The effect is amusing, but beyond description. The men carry their ties at a trot all day long. An inspector stands beside the plank that goes up the car to examine the ties being loaded. It is amusing to hear the inspector call a negro half-way up the plank with a tie on his shoulder to throw it away among the heap of bad ties. The negro gets no credit for his load and goes back swearing at his bad luck, while his companions stop their music and burst into loud, uncontrollable laughter. All these negro tie carriers have deep grooves in the right shoulder, where the ties have pressed, but the flesh is calloused and seldom sore. The men make good wages, most of them \$3.50 a day. They spend all of it. Very few of them save their money.

VOTE IS VERY LIGHT IN ALL THE WARDS

FEWER BALLOTS CAST THAN FOR MANY YEARS PAST.

Democratic Precincts Show the Heaviest Falling Off, the Fifth Ward Being 104 Votes Behind One Year Ago—The Vote Cast Up to 3 O'clock.

The vote today was the lightest cast at a municipal election in many years.

At 3 o'clock but 1523 ballots had been put in the boxes, compared with 1897 at that hour a year ago.

The loss was the heaviest in the democratic precincts. The Fifth ward for instance was 104 votes behind a year ago.

The vote at 3 o'clock, this afternoon, and at that hour for 1896, 1897, 1898 and 1899, are as follows:

The vote at 3 o'clock for the years 1896, 1897, 1898, 1899 and 1900 was as follows:

	1896	1897	1898	1899	1900
First Ward—					
1st Precinct.....	218	198	118	108	111
2d Precinct.....	260	271	200	230	167
Second Ward—					
1st Precinct.....	180	143	112	140	103
2d Precinct.....	275	221	186	200	157
Third Ward—					
1st Precinct.....	356	268	178	251	192
2d Precinct.....	380	268	221	193	158

Total.....	2731	2171	1667	1897	1523

THE GATES OF GIBRALTAR.

Interesting Ceremony of Locking Them at Sundown.

Quite the favorite sight at Gibraltar is the daily procession at sundown for the locking of the town gates. The keeper of the keys, looking very like a prisoner despite his uniform, marches through the town in the center of a military guard, preceded by a regimental band, which plays inspiring familiar tunes. The keys, of enormous size, are borne aloft before him as an outward and visible emblem of the vigilance of Britain in guarding her prime military treasure. On arriving at the gates, the guards salute, the martial strains strike up with redoubled peal of triumph, while the great doors slowly swing to, and are solemnly locked for the night. Then right about turn, and the procession marches back to the convent to deposit the keys in the governor's keeping, conveying by its passage an assurance to the people and garrison that they may rest in peace. Once the gates are shut it were easier for a camel to pass through the eye of a needle than for any unauthorized person to go into Gibraltar. Even a belated officer returning from pig-sticking beyond the lines would be confronted by so many formalities and the necessity of inconveniencing so high personages that he would probably prefer to encounter the discomfort of a Spanish inn without.

Try a dozen our Jumbo navel oranges. They are immense in size, style, sweetness and flavor. 48 cents per dozen Dedrick Bros.

Flexibone Moulded Corsets

Are the best fitting Corsets on the market. They are especially adapted for fleshy people and are guaranteed for three months.

Put a Girle Round the Earth

In Forty Minutes

Thus says Puck in "A Mid-Summer Night's Dream." There were no telephones in Shakespeare's day, or he would have realized that two-thirds of an hour is a long time. What would the Bard of Avon say if he were to revisit the earth and behold the wonders of the incoming Twentieth Century, the most marvelous of which is the telephone! With the telephone you can talk and receive an answer in FORTY SECONDS!

Residence Telephone Rate, \$1 a month.

DEBATES IN THE SENATE.

Bright Speeches by Cullom, Bate, Depew and Others.

THE CONSTITUTION AND FLAG.

Old-Time Saints in the Upper House and American Ideas Under Discussion—Regarding Acquired Territory—Other Washington News.

Washington, D. C., April 3.—Senator Depew delivered his expected speech in the senate on the Porto Rican government bill. His defense of the tariff feature of the bill was preceded by a clear statement of the conditions existing in the island and of the circumstances responsible for the present distress and suffering of the people.

Discussing the tariff feature of the bill Mr. Depew said:

"The analysis of the productions of the island which are exported shows that about five-eighths is coffee. There is no duty on coffee, and so there is no outrage there. There is a duty at present of \$1.60 per 100 pounds upon sugar and \$1.35 per pound upon tobacco under the Dingley tariff act. There are millions of dollars' worth of this sugar and tobacco, owned by the sugar and tobacco trusts, which is held upon the market and stored in warehouses in Porto Rico awaiting the action upon this bill. This sugar and tobacco was bought from the planters of Porto Rico at a price which included these Dingley tariff duties and still left a large profit for the purchaser. Every concession made from the Dingley tariff is made much more clear profit, not to the producer, or the laborer, or the citizen of Porto Rico, but to these purchasers of their products. So by this act we are, out of the 100 per cent of additional profit which the sugar trust and tobacco trust would receive under free trade, taking 15 per cent for the people of Porto Rico and leaving the purchasers 85 per cent for their own income. The only difference between the original recommendation of the president of the United States and the action of the house of representatives and of the senate committee is in the method by which the people of Porto Rico can receive the whole of the revenue from the tariff.

Mr. Bate also spoke upon the pending Porto Rican bill; but his speech embraced the whole question of expansion, and the treatment by the government and by congress of our insular possessions. He took strong ground against the acquisition of Spanish territory under the treaty of Paris—against which he voted—and inquired: "Can the American people acquire from another nation by purchase the moral right to govern 10,000,000 people against their consent, when attested by forcible resistance, that rightful rebellions which our revolution consecrated for all people? There is not a page, nor a paragraph in our history, which sustains the rightfulness of purchasing peoples—10,000,000 in one batch, like cattle in box cars."

In a discussion of "Imperialism," Mr. Bate said:

"I rejoice in the conviction that neither in England nor in the United States are the sentiments, opinions, and convictions of the people represented by the administration. That treaty has proved itself to be the Pandora box out of which has flown all the evils which are now embarrassing this government: dividing its people along lines of policy which threaten the very existence of the constitution, and opening the way of imperialism in policy, to unnatural expansion of territory, to the overthrow of the Monroe doctrine, to the incorporation with our people of millions of savages totally unfit for self-government, and unable to comprehend its forms and purposes."

In his speech Mr. Spooner said: "Does the constitution follow the flag? No, it does not. Our army entered Cuba during the war with Spain. Our flag is there now. But is our constitution there? Certainly not. Can we legislate for Cuba? No, we cannot. Our soldiers are there, but the constitution is not. The only law which follows the flag is the law of war. The flag follows the constitution, not the constitution the flag."

In response to a question asked by Mr. Tillman (S. C.) Mr. Spooner said: "The proposition that the constitution extends of its own force over acquired territory was invented in the interest of slavery; the new dogma was advocated in the interest of slavery by Mr. Calhoun. Mr. Webster opposed it in the interest of liberty and of sound constitutional legislation. The Calhoun dogma we thought was shot to death on the unnumbered battlefields of the war of the rebellion."

An allusion being made further along to the lobby which Mr. Spooner said was urging free trade with Puerto Rico, Mr. Bacon suggested:

"Mr. Oxnard appeared before the committee."

"Yes," retorted Mr. Spooner. "And did the committee pay attention to him?"

"It looks so," replied Mr. Bacon. "The committee did what he demanded."

"The idea that the congress of the United States can be influenced to do injustice to the people of Puerto Rico," declared Mr. Spooner, vehemently, "by Mr. Oxnard or by any protected interest, is a libel on our institutions and ought not to be uttered here and ought not to find lodgment anywhere. I want to repeat that a large and industrious lobby—and I say what I know—is here en-

deavoring to induce congress to pass a free-trade bill."

In answer to a question by Mr. Tuley (dem. Tenn.) as to the source whence the revenue would be derived under the pending bill, Mr. Spooner said:

"I say it comes from the sugar trust and its importers, or from the rich sugar producers on the island. In either event it is right. It comes from the right spot and it will go to the right spot."

Mr. Perkins (rep. Cal.), one of the members of the committee which framed and reported the pending bill, addressed the senate in support of the measure.

In a brief speech, following that of Mr. Perkins, Mr. Simon (rep. Ore.) declared that he should vote against the pending measure. Mr. Simon took the ground that the proposed act was a serious party blunder, as well as wrong in itself. He maintained that the people of the island are under our flag, and therefore should not be held for colonial exploitation. The assertion of our power to levy the proposed tariff was in violation of a tacit but well-understood agreement with them, and he could not, therefore, give it his support.

Do You Know

Consumption is preventable? Science has proven that, and also that neglect is suicidal. The worst cold or cough can be cured with Shiloh's Cough and Consumption Cure. Sold on positive guarantee for over fifty years. Sold by J. P. Taker

Men Wary of Female State.

Beatrice, Kan., April 3.—This town has reversed its verdict given a year ago and ousted the women's city government then elected.

The women officials, headed by Mrs. Elizabeth Totten, the mayor, sought re-election, and the men, having wearied of the rigid code of public morality imposed by the women, put up a ticket of their own and elected most of their candidates.

The women re-elected the clerk, one councilman and the marshal, this last named officer being a man.

The issue publicly discussed was the prohibition of liquor selling. The men admitted that, aside from making Beatrice a dry town, the women gave a good and business-like administration of public affairs, but among other grievances they had grown tired of being alluded to in the press of neighboring cities as "the male minority in a hen town."

CAN'T KEEP IT UP.

Can't Deceive Janesville People Very Long—They Learn Quickly.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Mr. Samuel Griffin, of 203 Locust St., journeyman can enter, says: "I had a severe attack of la grippe and as a result weakness of the kidneys set in. The secretions from those organs were greatly disordered, annoyed me much at night and I seemed to have limited control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name, Doan's and take no substitute.

HOW TO LIVE LONG

Is the subject of a poem written by the philosophical Pope Leo XIII, who has attained more years than his allotted three score and ten, in which he advises:

"Thy meats be delicate and dairy fed, Tender and lightly spiced thy food." That is the kind of meats we serve at all times, "delicate, dairy fed, tender beef, lamb, pork, mutton, veal—nutritious, delicious and tempting. Our wagons will call daily for your orders."

CASH.

It is upon this system that we have founded our business. It is through the advantages accruing from this system that we are enabled to make inducements, impossible by firms laboring under old time systems. They themselves admit it. You have noticed it yourself. A firm will advertise a sale for a day, a week, or more perhaps, during which time they will make such and such prices FOR CASH. They see the benefits and what can be done under that system, but through habit, circumstances, etc., they continue along in the old rut. You notice again a price at cost, or less possibly. It seems cheap; you think that store a good place to make your purchases. It may be on that article, but you KNOW that their run of prices are the same old familiar ones, in many cases made for them by the manufacturer who packs the goods to sell at certain retail prices. Now

Cash Enables Us to Make Our Own Prices

We cannot quote price on every article in our store (we wish we had space) but you see our advantage and we want you to share it with us.

PIGEONS AND THE CHINESE

How the Celestials Make the Birds Eager for Circling.

The Chinese have made pigeon flying the delectable game that it is because they like any kind of "playing for keeps," says St. Nicholas. Even in kite-flying, they fix little hooks to their kite strings and try to pull in each other's kites, and count it fair to keep any kite that drops into their yards. They will tell you that a kite or a strange pigeon that comes to your place, if given up, takes away your "family luck." So you must tear the kite and keep the pigeon. But when you see the town dandies sauntering out with their fans and bird cages to watch the noon kite flying, criticizing the flocks and their tactics, and arguing the fine points of decoying, you guess that "family luck" has very little to do with their game. To decoy strange pigeons, pigeon keepers must first train their flocks to "fly in spirals,"—that is, to rise steadily in circles without straying far from the home roof. Pigeons naturally fly together in circles. Even wild pigeons wheel about in flocks before straggling off to the fields. Chinese make their birds eager for circling by keeping them shut up in a wicker house built on the ground around the dove-cote, and they cure their birds of straggling by pelting them with pebbles when they try to alight anywhere except on one spot—the ridge-pole of the roof facing the wicker house. The flock must alight here in a bunch, and immediately walk down to the eaves. This is done to bring any strange pigeon among them down within sight of the grain, which is then scattered on the floor of the wicker house. Pigeons are fed only after flying, for unless hungry, they are lazy and unmanageable. Their food is millet, sorghum seed or corn, which their keepers use to get as much work from them as possible. When there is much flying and calling down to do, they are usually fed with millet, which is so small that it keeps them eating a long time without filling them. At other times their food is sorghum seed. Corn is not very good for pigeons, but they are so fond of it that pigeon keepers usually have it on hand to call them down when they are already fed.

Women and Monuments.

It is said that with the exception of Queen Victoria no woman has been the original of so much plastic art as the "Maid of Orleans," Joan of Arc. It is estimated that all the world over not more than fifty monuments have been erected to women. More monuments have been erected to the Emperor William I. of Germany, than to all the famous women put together. Nearly a century after Maria Theresa's death Austria erected a monument to her memory. A beautiful statue of Queen Louise of Prussia is in Berlin.
